

Professional Summary

- Capgemini-trained fresher with a strong foundation in API Testing, Core Java, Automation Testing, and AI/GenAI.
- Successfully completed the Capgemini Exceller Edge Fellowship Program with hands-on training in software testing, API testing, Java programming, automation concepts, and AI/GenAI.
- Hands-on exposure to API testing using Postman and REST Assured, including API request execution, response validation, status code validation, and test scenario execution.
- Strong knowledge of Core Java, Object-Oriented Programming (OOP), Collections Framework, Streams API, Exception Handling, and Java programming fundamentals.
- Hands-on experience with Cucumber, BDD (Behavior-Driven Development), and TDD (Test-Driven Development) approaches for developing and executing automated API test scenarios.
- Familiar with Maven, Git, GitHub, and AI-assisted development/testing tools such as GitHub Copilot.
- Completed Capgemini AI Launchpad learning program covering GenAI fundamentals, AI-assisted test design, test documentation, and GenAI tools for testing.
- Strong analytical and problem-solving skills with keen attention to detail.
- Quick learner with a proactive attitude and adaptability to new technologies.
- Ability to work effectively in collaborative team environments and contribute to project success.

Skills Profile

Technical		
QA Automation	API Automation	Rest Assured -Java
	API Testing	Postman
	BDD	Cucumber
		Gherkin
	Frameworks	TestNG
		JUnit
	Automation Framework Design	Page Object Model
	Build & Dependency	Apache Maven
	Utilities	Apache POI
	Tools	Eclipse
		Visual Studio Code
	CI/CD	Jenkins
	Version Control	Git
		GitHub
QA-Manual	Testing Types	Smoke Test
		Black-Box-Testing
		Test Case Design

		Test Reports
	Processes	Software Development Life Cycle(SDLC)
		Software testing Life Cycle(STLC)
	Tools	Atlassian Jira
	Documentation	Microsoft Excel
API & Backend	SQL	CRUD
		Data Integrity
	ETL Concepts	ETL
	Database Testing	Analytical Database
QA Performannce	Jmeter	Performance Test Scenarios
	Load/Stress	API Load Testing
Programming	Java	OOP Concepts
Data Tools	Power BI	Visual Analytics

Functional

Management and Leadership Skills	Possess good leadership, team coordination, and organizational skills developed through leading college projects and coordinating various academic and cultural events. Able to work effectively with teams, manage responsibilities, communicate clearly, and contribute to achieving common goals.
Training & Development	Postman, REST Assured, Java, Software Testing , API Testing, Cucumber , Junit , TestNG, AI, TDD Framework , BDD Framework , Database Training , GIT, Github , Maven , Agentic AI , Prompt Engineering .

Training and Seminars

Capgemini Exceller Edge Fellowship Program (January 19,2026 to May 7,2026)

- Successfully completed a five-month structured training program at Capgemini.
- Developed a foundation in Core Java and software testing.
- Received hands-on training in API Testing using Postman.
- Gained exposure to API automation using REST Assured with Java.
- Worked with Cucumber, BDD, TDD, and Gherkin-based test scenarios.
- Used Maven, Git, and GitHub during technical training and automation activities.
- Completed AI/GenAI learning through the Capgemini AI Launchpad.
- Explored AI-assisted testing, test design, test documentation, and GenAI tools.
- Gained exposure to GitHub Copilot for testing and development activities.

Technical Training / Learning

- Introduction to AI / GenAI Essentials – Capgemini AI Launchpad
- Hands-on Test Design – Capgemini AI Launchpad
- Test Design & Documentation using AI
- GenAI Tools Used in Testing
- GenAI / Atomic AI
- REST Assured with GitHub Copilot

- API Testing
- Core Java
- Cucumber / BDD / TDD

Training Project

API Testing and Automation Framework

- Designed API test scenarios for validating REST API functionality.
- Executed API requests and performed response validation using Postman.
- Developed automated API test cases using Java and REST Assured.
- Created BDD scenarios using Cucumber and Gherkin.
- Applied assertions and validation techniques to verify expected API behavior.
- Used Maven for project dependency and build management.
- Maintained project code using Git and GitHub.
- Explored AI-assisted development and testing using GitHub Copilot.

Certifications

- *Capgemini Exceller Edge Fellowship Program (January 19,2026 to May 7,2026)*
- *POSTMAN Agentic AI Tool for API Testing)-V&V AT-API Testing-AI Launchpad-FS_Beginner_16:00 hrs*
- *Rest assured with Github Copilot)-V&V AT-API Testing-AI Launchpad-FS_Beginner_16:00 hrs*
- *Hands-On on Test Design-V&V AT-AI Launchpad-Sogeti_Beginner_08:00 hrs*
- *Test Design (documentation) using AI-V&V AT-AI Launchpad-Sogeti_Beginner_08:00 hrs*
- *Gen AI Tools used in Testing-V&V AT-AI Launchpad-Sogeti_Beginner_08:00 hrs*
- *GenAI VS Agentic AI-V&V AT-AI Launchpad-Sogeti_Beginner_08:00 hrs*
- *Introduction to AI| Gen AI Essentials-V&V AT-AI Launchpad-Sogeti_Beginner_08:00 hrs*

Education

Panimalar Engineering college -Chennai, Tamil Nadu, India,

Batchelor of Technology in Artificial Intelligence and Data Science, 2026
